

## ACCURAY-AT-A-GLANCE

Accuray is a radiation oncology company that develops, manufactures and sells precise innovative treatment solutions which set the standard of care, with the aim of helping patients live longer, better lives. The company's leading edge technologies – the CyberKnife® and TomoTherapy® Systems – are designed to deliver radiosurgery, stereotactic body radiation therapy (SBRT), intensity modulated radiation therapy (IMRT), image-guided radiation therapy (IGRT) and adaptive radiation therapy.

## OUR VISION

A future where the fear, pain and suffering of cancer are a thing of the past.

## OUR MISSION

To develop personalized, leading-edge treatment solutions that help cancer patients live longer, better lives.

## WHY, WHAT WE DO, IS IMPORTANT

- To patients – Accuray offers new hope to cancer patients through innovations that help them live longer, better lives.
- To customers – Accuray's leading-edge treatment solutions expand clinical opportunities for healthcare providers, helping them offer the best treatment for each patient.
- To investors – Accuray offers unique and well-differentiated products specifically designed for radiosurgery and IMRT; two rapidly growing market segments.
- To colleagues – Accuray colleagues are committed to fundamentally changing the future of cancer treatment and helping patients live longer, better lives.

## COMPANY OVERVIEW

Employees	More than 1,000 colleagues globally
Offices	Sunnyvale, CA (Corporate Headquarters); Madison, WI; Morges, Switzerland (International Headquarters); Hong Kong, China; Tokyo, Japan
Manufacturing	Madison, WI; Sunnyvale, CA; Chengdu, China
Senior Management	Joshua H. Levine, President and Chief Executive Officer Kelly Lundy, EVP, Chief Operating Officer Kevin Waters, SVP, Chief Financial Officer
Installed Base	Over 750 systems installed worldwide

## OUR TECHNOLOGIES

The Accuray Incorporated CyberKnife® and TomoTherapy® Systems are highly complementary – and both put the emphasis on patient-focused care. They serve distinct patient populations that are treated by the same medical specialty, radiation oncology. Accuray offerings include advanced, personalized technologies for the treatment of cancer and other diseases, ranging from high-precision radiosurgery for early-stage and localized disease to 3D image-guided, intensity modulated radiation therapy (IG-IMRT) for more advanced disease sites throughout the body.

**CyberKnife®**

The CyberKnife System is the premier solution for full-body robotic radiosurgery system optimized to deliver radiosurgery and stereotactic body radiation therapy non-invasively throughout the body. Its ability to track and automatically correct for tumor motion during treatment enables delivery of high doses of radiation with extreme accuracy, providing personalized treatments to meet each patient's needs.

The latest innovation in the CyberKnife product line is the CyberKnife M6™ Series, featuring the new InCise™ Multileaf Collimator (optional on the FI version) which features expanded clinical capabilities, reduced treatment times and an enhanced patient experience. More information on the CyberKnife M6 Series can be found [here](#).

**TomoTherapy®**

The TomoTherapy System is the premier solution for the entire spectrum of radiation therapy offering a fully-integrated, 3D image-guided intensity-modulated radiation therapy (IG-IMRT) system. Through daily CT imaging, each patient receives the most accurate and highest quality individualized treatment specifically tailored to their needs. Unique helical delivery means a broader range of tumors can be treated in a shorter treatment time, expanding options for more patients.

The latest innovation in the TomoTherapy product line is the TomoTherapy H™ Series which offers interactive planning, added efficiency and flexibility in treatment delivery by sharpening dose fall off and ensuring the highest quality of personalized care from the routine to the most complex cases. More information on the TomoTherapy H Series can be found [here](#).

## NOTEWORTHY AWARDS

**md buyline** Highest user satisfaction composite ratings among radiation treatment delivery vendors  
Q4 2015 MD Buyline Market Intelligence Briefing™
