

## ACCURAY AT-A-GLANCE

Accuray Incorporated invents, manufactures and supports a complete portfolio of precision radiation therapy and radiosurgery platforms, including the CyberKnife®, TomoTherapy®, Radixact™ and Onrad™ Systems, for treating multiple forms of cancer. We design our solutions in collaboration with oncology and other healthcare professionals who share our goals of continuously improving care and helping patients live long and healthy lives. We surround our platforms with a full range of expert services that our customers confidently leverage to drive the outcomes that matter most to them — optimizing patient care, enabling staff efficiency and sustaining practice prosperity.

## OUR MISSION AND VISION

We work passionately to create a future without the fear, pain or human suffering of cancer. We pursue this by developing precise, innovative tumor treatments that empower clinicians and help cancer patients live longer, better lives.

## COMPANY OVERVIEW

Employees	More than 900 colleagues globally
Offices	Sunnyvale, CA (Corporate Headquarters); Madison, WI; Morges, Switzerland (International Headquarters); Hong Kong, Shanghai, China; Tokyo, Japan
Manufacturing	Madison, WI; Sunnyvale, CA; Chengdu, China
Senior Management	Joshua H. Levine, President and Chief Executive Officer Lionel Hadjadjeba, SVP, Chief Commercial Officer Kevin Waters, SVP, Chief Financial Officer Darl Moreland, SVP, Regulatory, Quality and Compliance Alaleh Nouri, SVP, General Counsel and Corporate Secretary Andy Kirkpatrick, SVP, Global Operations and R&D
Installed Base	Over 850 systems installed worldwide

## WHY WHAT WE DO IS IMPORTANT

- To patients – We offer new hope to cancer patients through innovations that help them live longer, better lives.
- To customers – Our solutions provide the confidence clinicians need to pursue the outcomes that matter most to them — patient care, staff empowerment and practice prosperity.
- To investors – Our highly differentiated portfolio of radiosurgery and radiation therapy systems — along with our relentless investment in new technologies and software — provide investors with rewarding growth opportunities.
- To colleagues – We create an environment of collaboration, engagement and singular focus on continually improving outcomes for cancer patients worldwide.

## OUR TECHNOLOGIES

Accuray radiation therapy and radiosurgery treatment systems are designed to provide clinicians with the confidence to deliver exceptional patient experiences, build optimized workflows and achieve practice goals.

### CyberKnife®

The world's first - and only - robotic radiosurgery system tracks and continually adjusts to compensate for even the slightest patient or tumor movement. The result is optimized stereotactic radiosurgery and stereotactic body radiation therapy (SRS/SBRT), delivered with sub-millimeter precision, non-invasively throughout the body. **More information on the CyberKnife® M6™ Series can be found [here](#).**

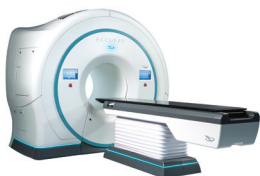

### Radixact™

Next-generation TomoTherapy® platform. This uniquely smart system empowers clinicians by integrating treatment planning, data management and treatment delivery into one uniquely smart platform. It combines best-in-class imaging capabilities, treatment flexibility and dose precision. **More information on the Radixact™ Treatment System can be found [here](#).**

### TomoTherapy®

This fully integrated 3D conformal radiation therapy and IMRT system gives clinicians the ability to treat the entire spectrum of radiation therapy patients. Clinicians can provide each patient with exceptional, individualized treatment using daily CT imaging and optimized beamlet-based delivery. **More information on the TomoTherapy® H™ Series can be found [here](#).**

### Onrad™

An advanced radiation treatment system based upon TomoTherapy H™ platform that provides clinicians with the tools they need to deliver IG-IMRT for every patient, every treatment, every day.

## Accuray is #1 in User Satisfaction Composite Ratings

#### Important Safety Information:

Most side effects of radiotherapy, including radiotherapy delivered with Accuray systems, are mild and temporary, often involving fatigue, nausea, and skin irritation. Side effects can be severe, however, leading to pain, alterations in normal body functions (for example, urinary or salivary function), deterioration of quality of life, permanent injury, and even death. Side effects can occur during or shortly after radiation treatment or in the months and years following radiation. The nature and severity of side effects depend on many factors, including the size and location of the treated tumor, the treatment technique (for example, the radiation dose), and the patient's general medical condition, to name a few. For more details about the side effects of your radiation therapy, and to see if treatment with an Accuray product is right for you, ask your doctor.
